Database: MySql, MongoDB, Firebase, Supabase
Operating System: Windows, Linux
Libraries and Tools: Git - Github, Familiar with (Docker)
Soft Skills: Hard Working, Adaptability, Management skills, Problem Solving, Communication skills

WORK EXPERIENCE

Front-end Developer
Augmetic Infinite LLP, Ahemdabad , Gujarat,   *May 2023 - June 2023*

- I've developed a small project management web application using ReactJS. This application simplified task and project management processes with its intuitive interface and straightforward functionalities such as adding and deleting projects, and adding tasks to specific projects. Through this project, I delved into ReactJS, gaining hands-on experience and strengthening my grasp of its fundamental concepts and principles.

Full Stack Developer
Axire Infotech Pvt . Ltd , Rajkot , Gujarat,   *May 2024 - June 2024*

- I have worked on a live project titled "Portfolio Maker," utilizing React.js, TypeScript, Tailwind CSS, and Supabase. My responsibilities included developing and maintaining the application, implementing responsive UI/UX designs, and ensuring optimal performance. I collaborated with cross-functional teams to deliver high-quality and scalable software solutions, handled both front-end and back-end development tasks, and adhered to best practices in coding and project management within a fast-paced, agile environment.

PROJECTS

- **EMART** *Role:Frontend Developer, TechStack: HTML, CSS, JS and Bootstrap*
  * Developed an ecommerce website catering to small shops, enabling the online sale of products such as clothes, watches, shoes, and ornaments. GitHub
- **Realtime-Chat-Webapp** *Role:Full Stack Developer, TechStack: MERN STACK*
  * Developed a real-time chat application for seamless communication, fostering instant connections and collaboration.GitHub
- **Ashutosh Enterprise** *Role:Frontend Developer, TechStack: HTML, CSS, JS , ReactJs and Bootstrap*
